

## The most dramatically styled automobile since the Continental Mark III.

Marquis is the first medium-priced car with a dramatic elegance, a majestic beauty that only the men who build the Continental Mark III could create. The new Marquis comes with a

429 cubic inch V-8 engine, concealed headlamps, Select-Shift automatic transmission. Twin Comfort lounge seats are standard for the Marquis Brougham, shown. (Optional for other Marquis

models.) The Marquis comes eight ways including hardtops, sedans, a convertible and a station wagon. One thing we promise. You won't walk away saying you've seen it all before.

**Lincoln-Mercury leads the way with the new MARQUIS.**
