

Break away into perfect weather:

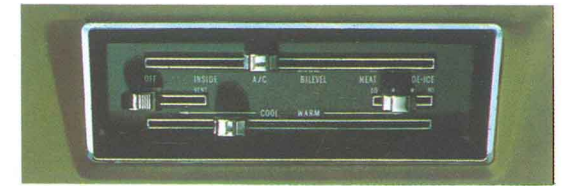

1969 Pontiac Air Conditioning

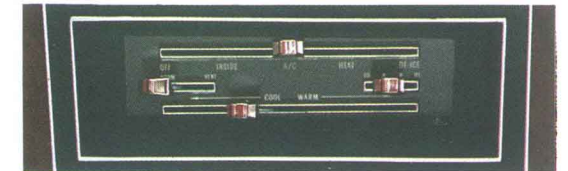

Not much you can do about the weather outside your 1969 Pontiac. It's going to be hot and sticky sometimes—chilly and damp other times—whether you like it or not. But the weather inside your new Pontiac—ah, that's something else again. There you can enjoy perfect weather all the time, with Pontiac Automatic Temperature Control Air Conditioning. Set this letter-perfect “weatherman” for the exact temperature you want. It will hold that temperature day in, day out all year long. Automatically—and without any further attention from you. Cools` delightfully in hot weather. Heats comfortably in cold. Dehumidifies, too. It's always “just right” inside in all four seasons—no matter what the weather outside.

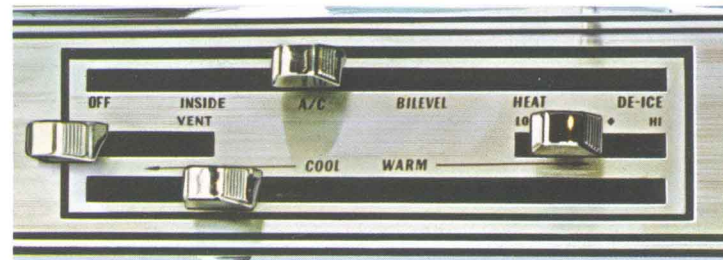

Automatic Temperature Control Air Conditioning. Available on Catalina, Executive, Bonneville and Grand Prix models. Select a temperature and forget it. Built-in sensors automatically maintain interior at desired pre-set comfort level year 'round. Dehumidifies, too. New, convenient lever controls.

Tempest Custom Air Conditioning. Optional on Tempest, Custom S, Le Mans, Le Mans Safari and GTO. Bi-level control sends temperature-selected air through near-the-floor vents, or air conditioning outlets, or both, for maximum comfort.

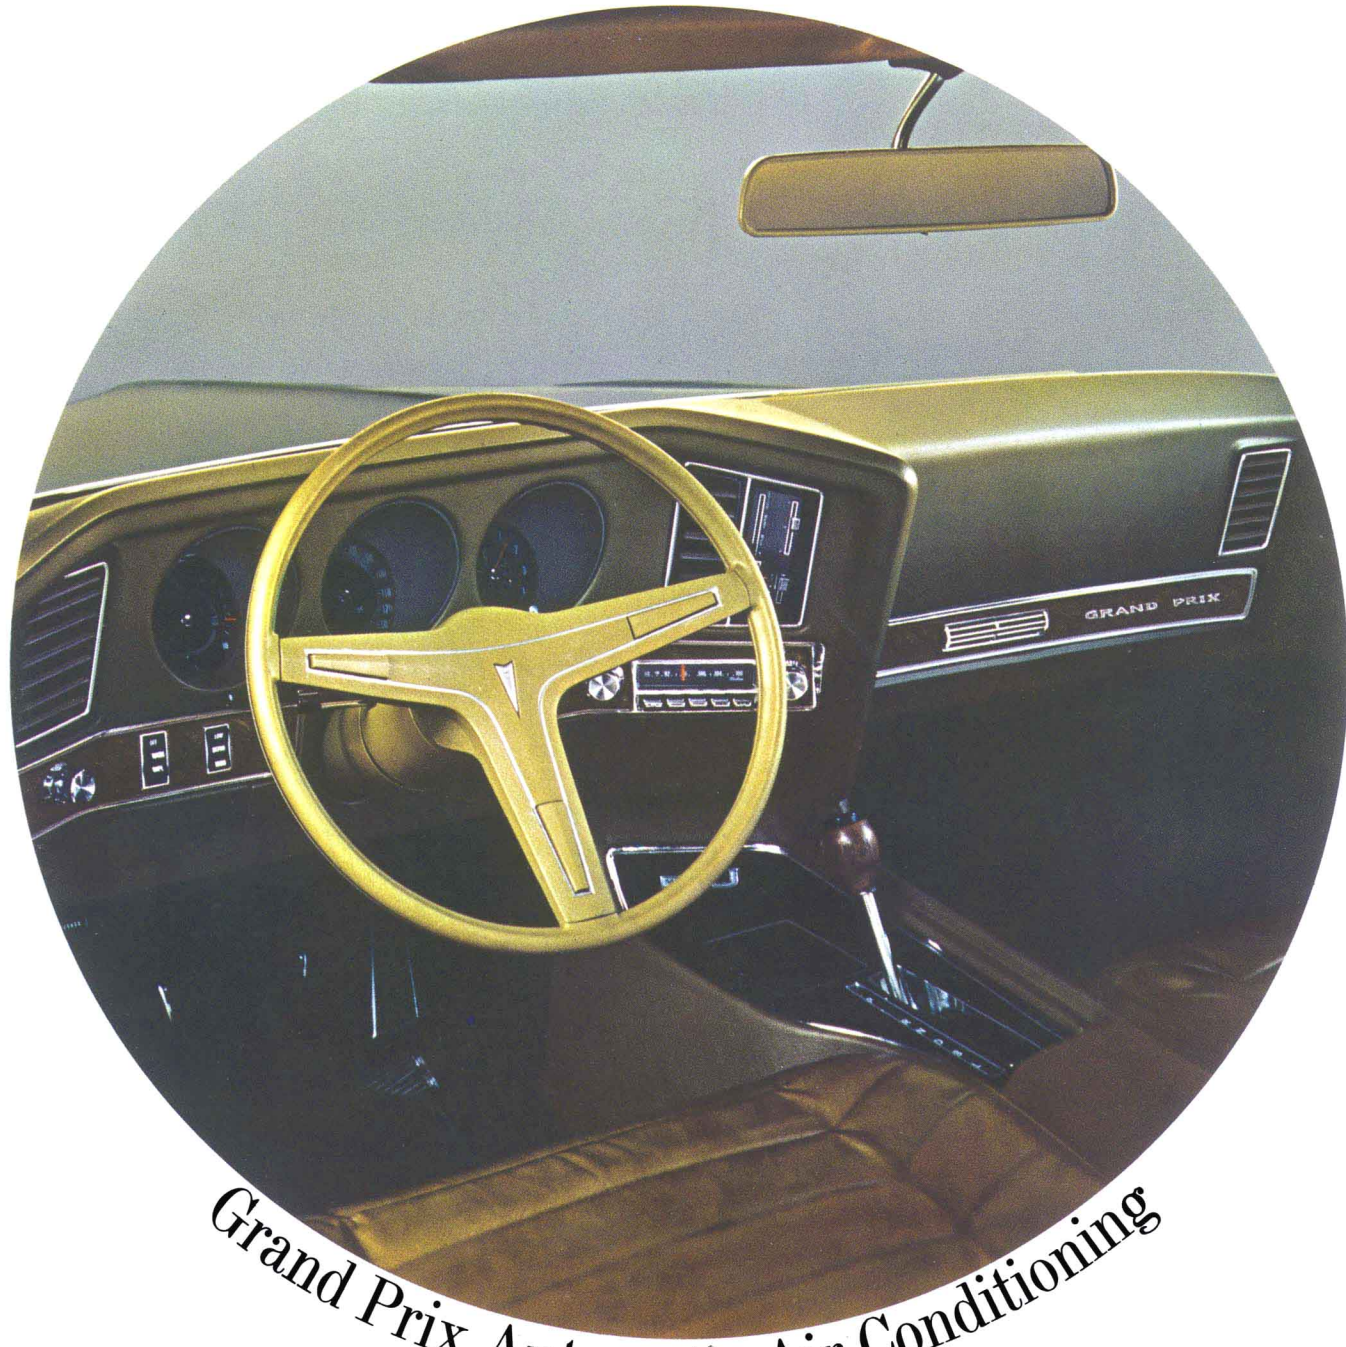

Firebird Custom Air Conditioning. Available on all Firebird models except the Sprint and 400 Ram Air IV where air conditioning is not available. New simplified, easy-to-operate fingertip controls provide comfort all twelve months.

Pontiac Custom Air Conditioning. In this bi-level system, heater and air conditioner are combined to provide full-range year 'round comfort. New lever controls for pinpoint comfort adjustments.

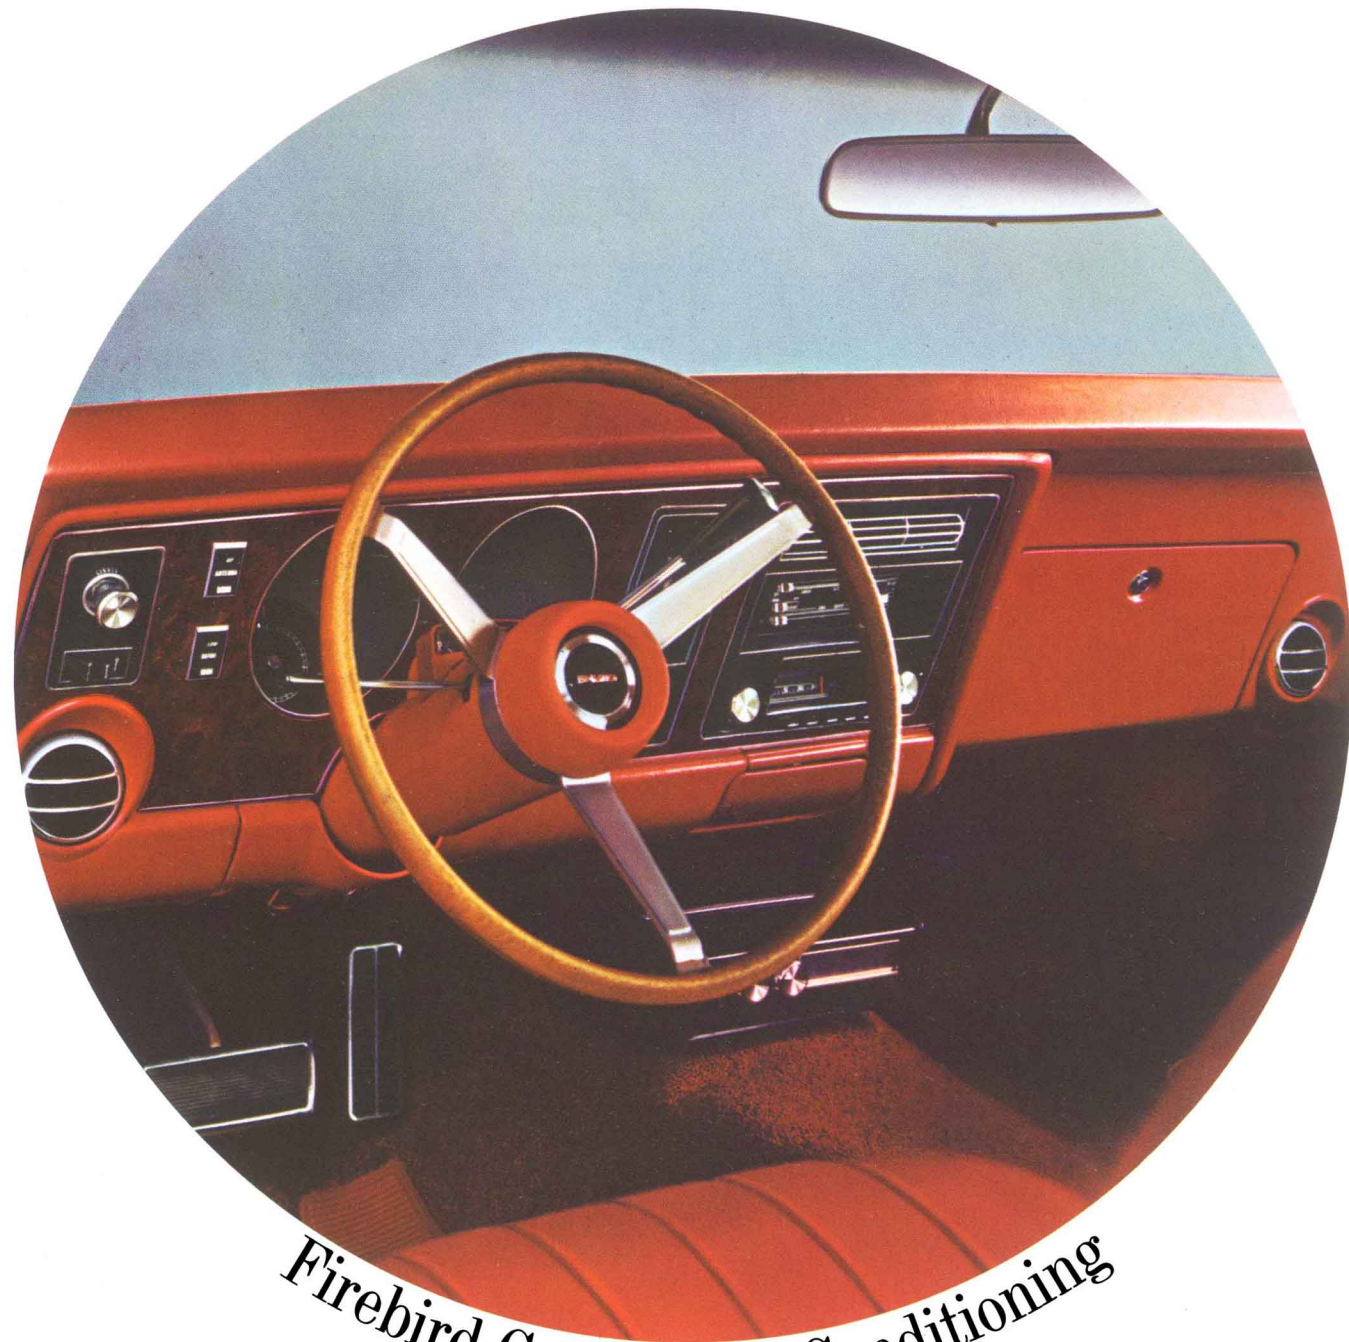

Grand Prix Automatic Air Conditioning

Pontiac Custom Air Conditioning

Tempest Custom Air Conditioning

Firebird Custom Air Conditioning

It stands to reason. The best air conditioning system for your 1969 Pontiac is an air conditioning system for four-season climate control that's designed, engineered and installed by Pontiac.
