

Fire & Refinement

POWER BY 

In the Shelby GT for 1969, Carroll Shelby has created a car that blends two entirely different qualities: high-performance and luxury.

Seventeen years of running at the front of the pack, fielding the cars the competition had to match, has put fire into this car. Power comes from your choice of two mind-bending engines: the all new Ram-Air 351 V-8, or the unbelievable 428 Cobra-Jet V-8. No nonsense super wide belted tires hang on to the road under the pressure of a suspension that's the toughest set-up this side of Daytona. There's stirring music to be made with the carefully crafted 4-speed manual or 3-speed automatic. And the power assisted front disc brakes come on like the great hand of gravity.

Altogether it adds up to an uncommon Sports machine. But the fire is balanced by a rare kind of elegance and refinement. Deep nylon carpeting throughout. Handsome

touches of simulated teakwood. Courtesy lights in the doors. Bright trimmed pedal pads. Plush high-back bucket seats. An array of luxury options that include air conditioning and stereo tape equipment. These are the touches of luxury cars.

Together the fire and the refinement make the Shelby a very special kind of car be it a SportsRoof or Convertible in either the GT 350 or GT 500. A car designed for rapid transit in the utmost comfort and luxury.
