

Every Collector Should Own One

These magnificent automobiles are no longer in production and are already being hailed as automotive classics virtually certain to appreciate in value in years to come. We purchased the entire world inventory of 1983 De Loreans from the receivers of De Lorean Motor Company in London, England, and have sold more than 1,200 to date with fewer than 300 remaining. We have a parts supply adequate to last for many years, and each new De Lorean is backed with 5-year/50,000-mile protection. The list price on these magnificent stainless steel cars is \$34,007. Our special sale price to the readers of The Robb Report is \$20,995. Call us toll-free at (800) 848-6466 or (614) 224-1297 to order yours today.
