

[1] Based on Alfa Romeo Premium Import Mid-size Sedan segment and latest competitive information. [2] LDW is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use brakes to avoid collisions. [3] FCW system is solely an alert system for the front of the vehicle which does not take any actions to change the vehicle dynamics to avoid a collision and is not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. [4] ACC is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use the brakes to avoid collisions. [5] Requires a mobile phone equipped with the Bluetooth Hands-Free Profile. Visit UconnectPhone.com for system and device compatibility. [6] SiriusXM subscriptions for audio and data services are sold by SiriusXM to follow your trial subscription. **If you decide to continue listening after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates.** Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See the SiriusXM Customer Agreement for complete terms and more information at www.siriusxm.com. All fees and programming subject to change. Your equipment and features for SiriusXM services will vary depending upon the vehicle you select and may be limited in select markets. [7] No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. [8] The Advanced Front Air Bags in this vehicle are certified to the new U.S. federal regulations for advanced air bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. [9] Always check visually for vehicles prior to changing lanes. [10] Always look before proceeding, electronic drive aid is not a substitute for conscientious driving; always be aware of your surroundings.

Alfa Romeo

IT HAS EARNED AND SUSTAINED ITS PLACE AS ONE OF AUTOMOTIVE'S MOST REVERED NAMES FOR OVER A CENTURY. FUELED BY PASSION, DARING INVENTION AND PROVEN TRACK RECORDS, ALFA ROMEO CONTINUES ITS EVOLUTIONARY STRIDES. FOR THE PURE DRIVER IN YOU.

GIULIA Ti SPORT

GIULIA Ti LUSO

GIULIA QUADRIFOGLIO

THE EXTENDED FAMILY

Along with a strong racing pedigree, each Alfa Romeo Giulia model shares an all-new architecture, which signals a product renaissance with lightweight properties that deliver signature Alfa Romeo high-performance and precision. The lines of Giulia are exquisitely drawn. Interiors allure with a striking combination of materials, Italian craftsmanship and state-of-the-art technology. Individual talents are encouraged as different Giulia models offer a mix of performance, style and features designed to please demanding drivers of all stripes.

THE BLOODLINE RUNS STRAIGHT BACK TO THE THRONE

Alfa Romeo reserves the Quadrifoglio badge for only its most high-performance creations: machines which bear more than a resemblance to the champions that came before them — they embody the pedigree of the legends themselves. Today, it's well-represented with class-leading^{1*} 505 horsepower generated by an all-new 2.9L Bi-Turbo direct-injection V6, amplified with performance-enhancing torque vectoring. A blistering top speed of 191 mph and 0 – 60 mph in 3.8 seconds further astound. For close to a century, the iconic cloverleaf has served as more than a good-luck symbol for Alfa Romeo race victories and track records — it exemplifies the pinnacle of performance. It stands for the Alfa Romeo Giulia Quadrifoglio.

*A note about this brochure: all disclaimers and disclosures can be found on the back cover.

The revered cloverleaf on the sculpted fender serves notice of the Giulia Quadrifoglio's caliber; its endless driver-centric details bring out the competitive best in both machine and operator. The Alfa Link™ patented sport suspension and Alfa DNA Pro with Race Mode amplify dynamic performances, while race-ready leather/Alcantara® seats, 19-inch aluminum wheels, a carbon fiber rear spoiler and an active aero front splitter all help to create the unique, exhilarating Giulia Quadrifoglio experience. Clearly, this is an Alfa Romeo that doesn't take "legend" lightly.

BLACK TIE OPTIONAL

With Ti Lusso, Giulia steps up its Italian propensity for high style. This is a performance sedan whose competitive side extends to creature comforts. Materials are exhaustively vetted; craftsmanship is vigorously scrutinized, to a degree that makes its superiority plain to even the most discerning. For those lucky enough to travel in Giulia Ti Lusso, every sense will be rewarded.

COMPETITORS IN EVERY SENSE

Giulia Ti Sport legitimately takes four-doors into sports car territory. Flat-out performance exceeds the high expectations its fierce cladding suggests: sport front and rear fascias, Gloss Black window surrounds, available 19-inch Dark 5-hole aluminum wheels and three-season performance tires help deliver on a visual promise. Reminiscent of the rich Alfa Romeo racing heritage, the interior features sport leather-trimmed seats with power-adjustable bolsters and thigh-support, and a Formula 1 inspired flat-bottom steering wheel with column-mounted paddle shifters.

4C COUPE AND 4C SPIDER

With a captivating mix of progressive technology, race-inspired performance and seductive Italian styling, the Alfa Romeo 4C is the driver's champion. Its carbon fiber monocoque chassis and other advanced lightweight materials — such as aluminum and carbon fiber — help put 4C performance into supercar territory. The Alfa Romeo 4C Spider adds even more dimension, delivering every sharp corner and quick turn-in with open-air exhilaration. Together, 4C Coupe and 4C Spider create an extraordinary, unfiltered driving experience.

A NEW BALANCE OF POWER

The main lesson from decades of racetrack victories? Balance is key. The hand-built Alfa Romeo 4C features a mid-engine layout, rear-wheel drive and a monocoque chassis that make for ideal weight distribution, leading to exceptional handling and control. Its groundbreaking, centrally mounted aluminum engine produces 237 hp and significantly reduces weight as it eliminates the need for a driveshaft. Ultralight materials like carbon fiber, aluminum and composites also help bring its curb weight to under 2,500 lb. All told, 4C makes full use of these dynamic advantages — it will accelerate as quickly as cars boasting higher horsepower, corner sharper, brake harder, turn in quicker and respond more readily.

Alfa Romeo 4C drivers prefer the finer things, like leather and carbon fiber. The available Carbon Fiber Interior Trim Group includes a carbon fiber instrument-panel bezel, shift bezel, air vents and cluster bezel. Available carbon fiber exterior mirrors are standout accessories. A leather-wrapped, flat-bottom steering wheel delivers the extraordinary 4C road-feel, while a leather-trimmed interior and performance seating with accent stitching step up 4C style even more.

THE SUV FOR THE S-CURVES

Where other automakers stop at utility, Alfa Romeo took on the challenge to create the perfect mix of high-performance, capability and design. Alfa Romeo has an enviable record of more than 105 years of applying lessons learned from hard-fought race victories to a succession of cars that have come to stand as timeless classics. Now, enter Stelvio. The newest member of the Alfa Romeo family, Stelvio brilliantly answers the demands of both devoted drivers and everyday life as a performance SUV. Infused with Italian passion, craftsmanship and innovation, this is a vehicle that will conquer the winding roads for which it is named.
