

2020

FLUX

When you're young, you seek out challenges. The straight and narrow is better left for someone else. The twists and turns are where the most thrilling life awaits. And it's the twists and turns that created the TLX. Our challenge was to engineer a car that delivers the thrill of performance in every corner. It's a driver-centric philosophy we call Precision Crafted Performance, the ultimate expression of man and machine becoming one. Welcome to one of our most exciting vehicles ever—the Acura TLX.

**WE DON'T
JUST BUILD
CARS,
WE ALSO
BUILD
DRIVERS**

3 \ DESIGN

TLX V-6 SH-AWD with A-Spec Package shown in Platinum White Pearl.

4

TLX V-6 shown in Platinum White Pearl.

TLX V-6 SH-AWD with A-Spec Package shown in Platinum White Pearl.

CORNERS DESIGNED THE TLX

Low and wide, the Acura TLX is ready for corner after corner, and its aggressively chiseled design tells you so well before you ignite the engine. Up front, the bold Diamond Pentagon Grille is flanked by intense Jewel Eye® LED headlights. Along the sides, dramatic, sweeping creases further reinforce that attitude.

SPEAK YOUR MIND WITHOUT SAYING A WORD

When a car is already as bold as the TLX, every design detail of the A-Spec® Package makes a big impact. The large dual oval exhaust outlets tucked away neatly in the piano-black diffuser speak loudly of the vehicle's performance focus. It's a focus reinforced by darkened headlights and taillights, side underbody and decklid spoilers, and an exclusive A-Spec front bumper perfectly matched to the signature Diamond Pentagon Grille that's finished with bold gunmetal mesh. And it's all riding on 19-inch Shark Gray split five-spoke wheels that give the TLX A-Spec a posture as powerful as the car's performance.

A-SPEC

TLX V-6 SH-AWD with A-Spec Package shown with Red interior.

TLX V-6 SH-AWD with A-Spec Package shown with Red interior.

INSPIRATION IN EVERY DETAIL

Welcome to a cabin built to inspire. Inside the TLX A-Spec is a wealth of comfort, style, and inspiration. And it all begins in the driver's seat. Whether you choose a red leather-trimmed interior or the ebony leather with Alcantara® trim, the front seats are finished with more aggressive side bolsters to better support the driver. And the unique A-Spec steering wheel is engineered with a thicker rim to offer the driver a more confident grip, while red accent lighting and instrumentation are there to inspire the driver to make the most of the TLX and all its abilities.

**THOUSANDS OF RACES AND MILLIONS
OF CORNERS DESIGNED THIS COCKPIT**

Enter the TLX, and you enter a driver-centric cabin. The seat—wrapped in available Milano premium leather trim finished with contrast stitching and piping—is as supportive during tight, high-speed maneuvers as it is comfortable during long, open-road drives. And the wealth of information, as intuitive as it is vast, is delivered on two screens; the top screen connects the driver to navigation, vehicle information, and smartphone, while the lower screen delivers access to entertainment and climate control.

TLX V-6 SH-AWD with Advance Package shown with Espresso interior.

TLX with A-Spec Package shown with Ebony interior.

IMMERSE YOURSELF IN PERFORMANCE

The relationship between car and driver compels every design decision at Acura. In the TLX, it's a focus that created an interior wrapped around the driver. Keeping the driver stable during performance maneuvers is a precision-crafted advanced seat frame, while amenities such as multiple levels of available heating and ventilation, ten-way adjustability, sculpted side bolsters, and an available heated steering wheel are all there to assure supreme comfort.

TLX V-6 SH-AWD with Advance Package shown with Graystone interior.

Dark Burl wood-finished and metal trim.

**DO MORE WITH HORSEPOWER
THAN BRAG ABOUT IT**

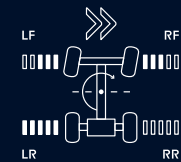

We believe horsepower is the beginning of the performance story, not the end, which is why, to make the most of the TLX's horsepower, we offer an available 3.5-liter, 290-hp, i-VTEC® V-6 or a standard direct-injected, 206-hp inline-4. And we created handling technology as advanced as the engines are powerful. The TLX comes equipped with the world's first Precision All-Wheel Steer™ system, in which the rear wheels assist the front wheels, independently adjusting their toe angles to increase steering precision during cornering, lane changes, and even parking. As well, every TLX is equipped with Agile Handling Assist,® technology that can apply braking to individual wheels as needed to help keep the TLX on its intended performance line. Also available is Super Handling All-Wheel Drive™ (SH-AWD®), a revolutionary torque-vectoring technology born from racing that turns even the most demanding driving moments into some of your most confident performance experiences.

290
HP V-6

TLX V-6 SH-AWD with A-Spec Package shown in Platinum White Pearl.

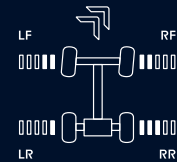

MAKE EVERY CORNER YOUR FAVORITE CORNER

That is the power of available Super Handling All-Wheel Drive (SH-AWD), a torque-vectoring system that creates an incredibly stable driving platform and turns corner after corner into some of your best high-performance experiences. SH-AWD distributes power front to back and to each rear wheel based on wheel speed, steering angle, rate of steering, lateral G-forces, and yaw rates. A chalkboard's worth of math translates into a very simple benefit: across a vast range of weather and road conditions, you get superior handling and confidence. From tight hairpins to high-speed lane changes to the loop after loop up a full parking garage, SH-AWD dramatically improves almost every drive every day.

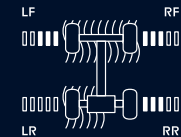

Cornering

When cornering on dry surfaces, up to 70 percent of the torque is distributed to the rear. Torque vectoring allows up to 100 percent of that power to distribute to the outside rear wheel, improving control and helping rotate the TLX through the turn.

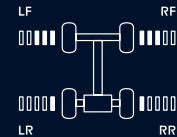

Lane Change

For increased stability during lane changes, the SH-AWD system transfers power to the inside rear wheel.

Slippery Road

Under slick conditions, SH-AWD actively sends power to the wheel with the most traction.

Highway Cruise

For better fuel efficiency, up to 90 percent of the power is sent to the front wheels when cruising in a straight line.

SH-AWD

FOUR WHEELS, ONE FOCUS

Precision All-Wheel Steer (P-AWS®) is a world's first from Acura—a system that engages the rear wheels to assist the front wheels during cornering, lane changes, and braking. It's an innovation that reads the driver's inputs as well as inputs from the vehicle and then independently adjusts the toe angle of each rear wheel. The result is a noticeable improvement in vehicle steering precision at almost every speed.

AGILE HANDLING ASSIST

During high-performance driving, Agile Handling Assist increases vehicle responsiveness and stability. The system can brake individual wheels as needed, effectively using brake torque vectoring to directly control the vehicle's rotation, delivering a more intuitive handling experience.

P-AWS

INTEGRATED DYNAMICS SYSTEM

ECON

NORMAL

SPORT

SPORT+

PICK YOUR FLAVOR

When you engineer a car with as much potential as the TLX, you want to make sure all that potential is realized. That's why every TLX is equipped with our Integrated Dynamics System (IDS) that perfectly sets up the car's technology to deliver four unique modes of Precision Crafted Performance. Click from Normal mode into Sport mode, and the TLX instantly dials up throttle response, increases the top end of shift points, weights the steering for a more connected feel, and puts the P-AWS or SH-AWD system on notice to deliver more aggressive responses. Sport+ takes that aggressive demeanor one step further, with even higher shift points and rev-matching downshifts for better balance when quickly running up and down the gears. And, should you feel like making the most of your fuel rather than your horsepower, Econ mode is at the ready to encourage both the engine and climate control to operate more efficiently, improving fuel savings.

CONNECT TO EVERYTHING AND EVERYONE

Available AcuraLink® effortlessly connects you to the information and media on your various mobile devices. From texts to tweets to traffic jams, AcuraLink is there to help, whether it's managing replies, finding a better route to your destination, or preloading your TLX with great trip-planning destinations. And should you want more help than all your technology can supply, Live Concierge Link directly connects you to personal assistants who can take care of everything from reservations to route options, while AcuraLink Assist directly connects you to live assistance any time of the day or night in the event of an emergency.¹

WIRELESS CHARGING

The TLX's available wireless charge pad keeps your Qi-enabled device powered up without the hassle of finding a USB cord.

ANDROID AUTO INTEGRATION

Android Auto™ brings the Android® experience into your TLX. With it, you can project all your favorite apps onto the TLX's touchscreen display, and its intuitive interface populates suggested directions, upcoming appointments, weather conditions, and more. The Talk to Google voice feature allows you to access directions via Google Maps™, send and receive text messages, and access your favorite music.³

APPLE CARPLAY INTEGRATION

CarPlay® seamlessly integrates your iPhone® with the car's built-in display and controls so you can make calls, access your music, send and receive messages, get directions, or use Siri® with the tap of a button.²

ODMD

The On Demand Multi-Use Display™ (ODMD™) provides everything you need right at your fingertips on two screens. Navigate CarPlay or Android Auto on the top screen, while still remaining connected to your music and climate management on the lower, dedicated touchscreen.

ELS STUDIO PREMIUM AUDIO SYSTEM

TLX V-6 SH-AWD with A-Spec Package shown in Apex Blue Pearl.

MUSIC CAN MAKE ANY DRIVE THE BEST DRIVE

Music is art. In the TLX, it's performance art, as the available ELS Studio® Premium Audio System delivers music as powerfully as music delivers emotion. Created by eight-time Grammy® award winner Elliot Scheiner, ELS Studio was designed to produce music as it's meant to be heard, so even the most familiar songs will feel like entirely new listening experiences. It's the perfect combination of engineering and artistry, all there to turn even the most routine drive into one of your best drives.

A CAR THAT LOOKS OUT FOR YOU, LITERALLY

The TLX delivers a full suite of advanced, active safety and driver-assistance technologies as standard equipment. We call that suite AcuraWatch™, a network of systems designed to increase awareness and support the driver, working to help prevent, avoid, and mitigate impacts.

AcuraWatch uses sensors that can continuously monitor the vehicle's surroundings, warning of potential threats, automatically providing steering input to help keep you in the center of a detected lane, automatically braking the vehicle when necessary to maintain a set interval from a vehicle detected ahead and, when necessary, emergency-braking to help avoid frontal collisions.

In addition, our available Surround-View Camera system gives you a 360-degree view of the space around the TLX, which is extremely helpful when backing into tight parking spaces. The system also delivers a front wide-angle view that's useful when exiting garages, parking spaces, and alleys.⁴

THERE
IS NO
BETTER
AMENITY
THAN
SAFETY

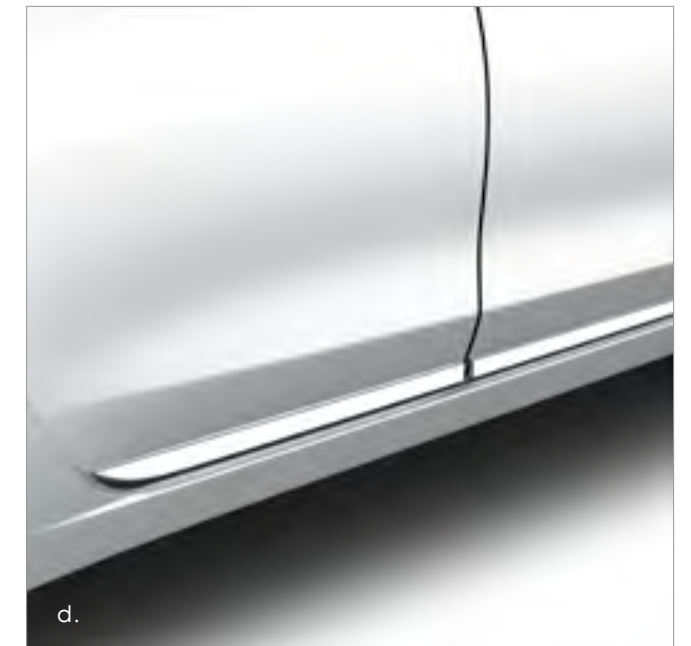

AT OUR BEST WHEN IT MATTERS MOST

Acura's Advanced Compatibility Engineering™ (ACE™) body structure is designed to absorb and disperse frontal impact energy so less force is transferred to what really matters: the people inside. But we didn't stop there. Crash compatibility is designed into the structure as well, so in the event of a frontal collision, the occupants of all vehicles involved are better protected. ACE incorporates extra bracing at the front corners to absorb and distribute impact energy from narrow-offset collisions to the primary crash structure. The outer braces are designed to transfer impact load toward the center of the frame, where the energy can be distributed around the cabin area more evenly. This enhanced frontal-crash-energy management helps reduce the forces transferred to the reinforced cabin and can help to more evenly disperse the forces transferred to other vehicles in a collision.

TLX V-6 SH-AWD with Technology Package shown in Platinum White Pearl with accessory aero kit, decklid spoiler, and 19-inch diamond-cut alloy wheels.

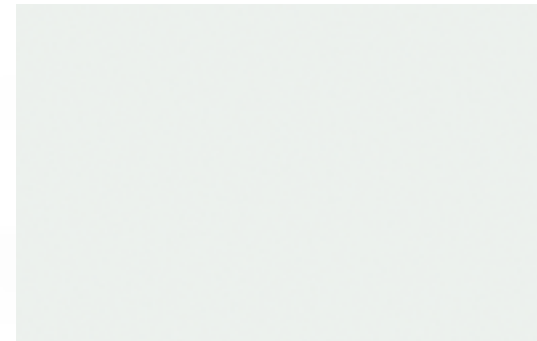

ACURA | GENUINE ACCESSORIES

When it comes to personalizing, choose Acura Genuine Accessories, which are crafted with the same precision and attention to detail as the rest of your Acura. The TLX has 39 accessories to choose from. See your Acura dealer for a complete list of accessories or visit acura.com.

OWNER BENEFITS

When you purchase a vehicle with the exceptional quality of an Acura, you expect service and support to be of the same caliber. After all, a premium automobile is only part of the ownership experience. With Acura, you also get a commitment: to personalized care, to attentive service. This commitment is apparent the moment you first enter an Acura dealership and for years down the road. It comes from a belief that every aspect of owning an Acura should be an enjoyable and rewarding experience.

Acura Limited Warranties

All Acura vehicles and any Acura Genuine Accessories installed by the dealer at the time of vehicle purchase have a four-year/50,000-mile limited warranty. Acura vehicles are also covered by a six-year/70,000-mile limited powertrain warranty. In addition, outer-body rust-through is covered by a five-year/unlimited-mile limited warranty.²⁰

ACURA Financial Services[®] | Acura Financial Services[®]

From leasing and financing to protecting your vehicle after your warranty expires to helping you determine which Acura fits your budget, Acura Financial Services (AFS) provides you with the convenience, options, and service to complement your life. For more information, go to www.acurafinancialservices.com.²¹

Acura Care[®]

Additional peace of mind can be had with the Acura Care program—comprehensive vehicle and travel protection beyond the initial warranty period. See your Acura dealer for all the features and benefits available with this program.

Total Luxury Care[®] (TLC[®])

Acura's commitment to your satisfaction doesn't end with the delivery of a world-class vehicle. As an Acura owner, you'll enjoy an array of services, like the Acura Concierge,TM for 24-hour weather information, insurance claims assistance, or to help you plan a trip; trip-interruption benefits, like alternative transportation, lodging, and meals; and a 24-Hour Roadside Assistance program.²²

AcuraLink

AcuraLink Owners Mobile App

It's not enough to simply be connected anymore; you need tools that work harder for you and your family. AcuraLink provides

you with a more enjoyable driving experience while offering peace of mind and added convenience.

Download the AcuraLink app to reap the benefits of the complimentary trial packages. Enjoy the luxury of a personal concierge or locate your vehicle after the big game by remotely flashing your lights and sounding your horn via your smartphone. Check your vehicle status remotely, receive assistance from a live agent in the event of a collision, and more. AcuraLink package information can be located at acuralink.com.

1-800-to-Acura

Operators are available 24 hours a day to help answer your Acura questions.

Acura.com

Learn more about Acura vehicles, including the latest specifications, see photo galleries and technology videos, and find out how our vehicles compare with the competition. You can also build and price your Acura, see current offers, and even get a quote from an internet-certified Acura dealer.

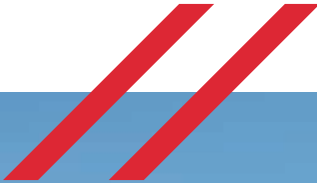

Owners.Acura.com

The online help doesn't end when you take possession of your vehicle. Your complimentary Acura Owners personalized website gives the most current information about your vehicle, provides tips on how to care for your Acura, lets you keep a personalized maintenance record, sends you service reminders, and lets you schedule service appointments online.

SiriusXM is a trademark of XM Satellite Radio, Inc. Make an intelligent decision. Fasten your seat belt. ¹ Certain AcuraLink services are available only where compatible cellular and GPS coverage is available. Subscription agreement required to enroll and terms and conditions of subscription agreement apply to services. Standard text rates and/or data usage may apply to communications received by email or SMS/text message. Visit your dealer or acura.com/acuralink for more information on standard and available features. ² For use with Apple iPhone[®] devices only. Requires iPhone 5 or later, and it is recommended that you always update your iPhone to the latest iOS release. It is recommended that you use the Apple Lightning cable provided with your phone or an Apple certified Lightning cable. Cellular service rates apply. Distracted driving can result in a loss of vehicle control. Never use a handheld device or system that takes your focus away from safe vehicle operation. The system is not a substitute for your own visual assessment before backing up; system accuracy will vary based on weather, size of object, and speed. ³ Requires Android phones with Android 5.0 Lollipop or higher. Using the USB cable that was provided with your phone is recommended. When Android Auto[™] is active, your in-vehicle voice recognition system will be disabled, and all requests will be made using Google voice actions. Android Auto[™] features may operate differently than on your phone. Apps use your smartphone data service. Normal cellular service rates will apply. Message and data charges may apply when using Android Auto. Compatibility with third-party apps is not guaranteed. Distracted driving can result in a loss of vehicle control. Never use a handheld device or system that takes your focus away from safe vehicle operation. ⁴ Always visually confirm that it is safe to drive; the camera display does not provide complete information about all conditions and objects around your vehicle. ⁵ Depending on the circumstances, CMBS may not go through all the alert stages before initiating the last stage (of collision mitigation). CMBS cannot detect all objects ahead and may not detect a given object; accuracy

will vary based on weather, speed, and other factors. System operation affected by high interior heat. Driver remains responsible for safely operating vehicle and avoiding collisions. ⁶ FCW cannot detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed, and other factors. System operation affected by extreme interior heat. FCW does not include a braking function. Driver remains responsible for safely operating vehicle and avoiding collisions. ⁷ LKAS (Lane Keeping Assist System) and LDW (Lane Departure Warning) only alert drivers or operate when lane drift is detected without a turn signal in use. LDW and LKAS may not detect all lane markings or lane departures; accuracy will vary based on weather, speed, and road conditions. System operation affected by extreme interior heat. Driver remains responsible for safely operating vehicle and avoiding collisions. ⁸ Adaptive Cruise Control (ACC) with Low-Speed Follow cannot detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed, and other factors. ACC should not be used in heavy traffic, poor weather, or on winding roads. The driver remains responsible for avoiding a collision. ⁹ The system is not a substitute for your own visual assessment before changing lanes; system accuracy will vary based on weather, size of object, and speed. ¹⁰ The system is not a substitute for your own visual assessment before backing up; system accuracy will vary based on weather, size of object, and speed. ¹¹ Always visually confirm that it is safe to drive before backing up; the rearview camera display does not provide complete information about all conditions and objects at the rear of your vehicle. ¹² Based on 2019 EPA mileage ratings. Use for comparison purposes only. Your actual mileage will vary depending on how you drive and maintain your vehicle, driving conditions, battery pack condition and age, and other factors. ¹³ Use of lower-octane gasoline can cause an occasional metallic knocking noise in the engine and will result in decreased engine performance. Use of gasoline with a pump octane less than ⁹¹ can lead to engine damage. ¹⁴ Siri[®] is available on iPhone[®] 4s or later, iPad[®] with Retina[®] display, iPad mini[™], and iPod touch[®] (5th generation) and requires internet access. Siri[®] may not be available in all languages or in all areas, and features may vary by area. Cellular data charges may apply. Some features may not be available for all countries or all areas. ¹⁵ Based on compatibility. Cellular connection required. Your wireless carrier's rate plans apply. See your dealer for details. ¹⁶ Visit www.handsfreelink.com for a list of compatible phones and available features. Compatible with select phones with Bluetooth[®] technology. Your wireless carrier's rate plans apply. ¹⁷ SiriusXM services require a subscription after any trial period. If you decide to continue your SiriusXM service at the end of your trial subscription, the plan you choose will automatically renew and bill at then-current rates until you call SiriusXM at 1-866-635-2349 to cancel. See our Customer Agreement for complete terms at www.siriusxm.com. Fees and programming subject to change. SiriusXM satellite service is available only to those at least 18 years of age in the 48 contiguous United States and D.C. ¹⁸ Compatible with select smartphones. See: www.pandora.com/anywhere/mobile. Not all devices are compatible with USB connection. Your wireless carrier's rate plans apply. ¹⁹ The USB Audio Interface is used for direct connection to and control of some current digital audio players and other USB devices that contain MP3, WMA, or AAC music files. Some USB devices with security software and digital rights-protected files may not work. Please see your Acura dealer for details on compatibility. Windows Media[®] is a trademark or registered trademark of Microsoft Corporation in the United States and/or other countries. ²⁰ Ordinary maintenance items or adjustments, parts subject to normal wear and replacement, and certain other items are excluded. See your Acura dealer for the items and conditions of limited warranties. ²¹ Acura Financial Services is a DBA of American Honda Finance Corporation. ²² See your local dealer for details about Total Luxury Care (TLC) Roadside Assistance and Acura Concierge service.
